Product Advantages

1. It is fashionable, beautiful, environment-friendly and pollution-free.
2. It has super toughness so as to avoid deformation and discoloration.
3. Its buckle system makes it easy to install and can save time and cost.
4. It has quite wide applications, suitable for a variety of scenarios.
5. We can customize our products as per different requests.

Installation

Cutting

Structural
glue

Apply to
wall

Clip/
Metal Strip

Repeat

1. Use laser level to check the wall flatness and verticality.
2. Use cutting machine to cut the lines that need to be edged.
3. The first edge trim needs to be strictly vertical.
4. Measure the wall size firstly, then cut the wallboard into appropriate sizes.
5. Apply structural glue on the back of wallboard, then install on the wall directly.
6. Hollow click board needs to be matched with clips; solidboard needs working with different metal strips.
