Insect Proof

100% Waterproof

Because SPC floor is composed of a wear-resistant layer, mineral and polymer powders, it is naturally waterproof. There is no need to worry about the issues of warping and mildew caused by blisters on the floor at home. Because the product is waterproof and mildew-proof, this product can be used in bathroom, kitchen, balcony applications.

SPC STRUCTURE

SPC is Suitable For Various Environments

SPC flooring has been widely used in kindergardens, hospitals, offices, office buildings, shopping malls, KTV and other public places due to low carbon and environmental friendly performance.

SPC CATEGORY

What Is SPC Flooring

SPC Vinyl Flooring stands for Stone polymer Composite vinyl flooring, Similar to WPC vinyl, SPC vinyl is an engineered luvury vinyl that combines lime stone and stabilizers to create an extremely durable core. SPC vinyl floor is still 100% waterproof, and adds more stability, dent resistance to the structure of vinyl plank flooring.

NATURAL STONE POWDER VINYL RESIN

Stone polymer composite flooring also known as rigid core vinyl flooring is made by from natural stone powder and high-quality vinyl resin.

SPC Flooring

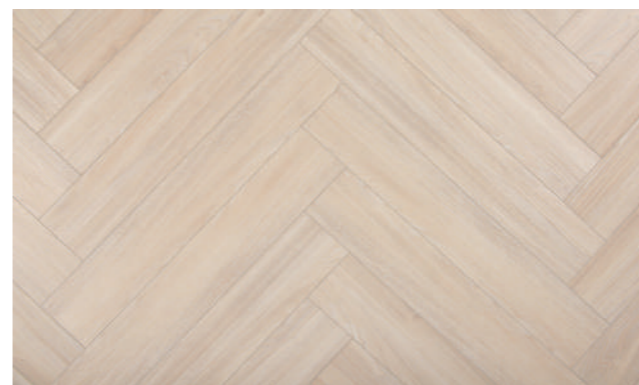

herringbone collection

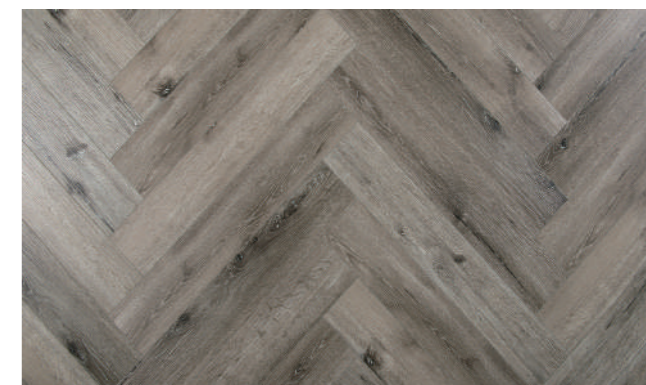

The herringbone pattern is named for a fancied resemblance to the bones of a fish such as a herring, and then it becomes one of the most popular flooring designs in the world--an arrangement of rectangles used for floor tilings. One set of our Herringbone flooring has A & B type of pattern, herringbone arranges planks in a zig-zag pattern to produce beautiful results.
